## **Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings of claims in the application:

## **Listing of Claims:**

1.-14. (Canceled)

15. (Currently Amended) A computer-implemented method for buying and selling in-force life insurance policies including a server computer[[,]] that supports operations of a website comprising at least a web-based interface, wherein access to at least one portion of the web-based interface is limited to administrators and authorized buyers or buyer representatives, and a database, the method comprising:

providing the database with information concerning a plurality of in-force life insurance policies;

- locating, by the server computer, from among the plurality of in-force policies stored in the database, those in-force policies whose <u>original policy</u> owners are willing, or may <u>become willing</u>, to entertain offers from potential buyers to buy the <u>owner's policy on</u> the insured from that original policy owner;
- obtaining, via the web-based interface, financial and medical underwriting information about the in-force policies from their <u>original policy</u> owners, as needed, and storing it in the database for evaluation by the potential buyers;
- categorizing, by the server computer, the financial and medical underwriting information electronically so as to allow queries on the database, based on one or more category, to create a listing of in-force policies being tracked that are potentially available for sale, by some query criteria, for review by the potential buyers; and
- tracking, by the server computer, membership records so that access to <u>at least a buyer</u> <u>portion of the database is limited to potential buyers who are represented in those membership records.</u>

Appl. No. 10/789,158 Amdt. dated January 6, 2011 Reply to Office Action of July 6, 2010

- 16. (Previously presented) The method of claim 15, further comprising granting access, via the web-based interface, to the database to a potential seller or an agent of the potential seller based on verification of a current membership record.
  - 17. (Previously presented) The method of claim 15, further comprising: identifying, from the database via the server computer, potential sellers of their in-force life insurance policies; and generating electronic messages that would be sent to these sellers or trigger a message to
  - these sellers, advising them of an opportunity to sell.
- 18. (Previously presented) The method of claim 15, wherein information concerning the in-force life insurance policy includes personal information of the in-force policy owner.
- 19. (Previously presented) The method of claim 15, wherein the database is implemented in an on-line environment including a website.
- 20. (Previously presented) The method of claim 19, further comprising holding an auction, using the web-based interface, for at least some of the in-force polices.
- 21. (Previously presented) The method of claim 19, further comprising appraising, via the server computer, the in-force policies using an automated appraisal service.
- 22. (Previously presented) The method of claim 19, further comprising providing the potential buyers access, via the web-based interface, to the financial and medical underwriting information of the owner and the owner's in-force policy stored in the database based on authorization by the owner or an agent of the owner.
- 23. (Previously presented) The method of claim 19, further comprising sending an email, by the server computer, to the potential buyers when one or more of the in-force policies meets one or more criteria, wherein an email address and the criteria are inputted into the database by the potential buyers.

Appl. No. 10/789,158 Amdt. dated January 6, 2011 Reply to Office Action of July 6, 2010

- 24. (Previously presented) The method of claim 19, further comprising tracking, by the server computer, a particular in-force policy at the request of the owner or owner's agent.
- 25. (Previously presented) The method of claim 24, wherein tracking the inforce policy includes issuing reminders to the in-force policy owner or the owner's agent to pay premiums for the in-force policy.
- 26. (Previously presented) The method of claim 24, wherein tracking the inforce policy includes notifying the in-force policy owner or the owner's agent about a point in time when it would be advantageous to sell the in-force policy in a life settlement transaction.
- 27. (Previously presented) The method of claim 24, wherein tracking the inforce policy comprises:

allowing the in-force policy owner or the owner's agent to enter information into the webbased interface about the owner's in-force policy;

calculating, by the server computer, an approximate face value of the in-force policy; and displaying, on the web-based interface, potential savings in premiums realized by selling the in-force policy for the calculated face value and buying a new policy with a lower premium.
